## PROJECTS

---

### Ecommerce Website Ayurvedic Cosmetic Products

- Developed an e-commerce platform for Ayurvedic cosmetic products as college project ,utilizing PHP for the front-end and MYSQL for database management .
- Focused on creating a user-friendly shopping experience with secure payment integration

### Online-Examination-System

- Developed and implemented an Online Examination System using PHP and MySQL, enabling efficient management of exams, user authentication, and real-time results processing.
- The system supports dynamic question generation, automated scoring, and secure storage of exam data in a MySQL database.
